

# EMERGING THREAT SERVICES

## PROACTIVE MITIGATION OF THREATS

CBI's Emerging Threat Services helps identify weaknesses before your organization becomes vulnerable. Our expert team of threat hunters live on the frontline of cybersecurity and can help your organization combat emerging threats and guard your valuable corporate assets.

### OUR APPROACH

We understand the data behind emerging risks and how to proactively mitigate their threats. CBI balances tactical and strategic evaluations to categorize vulnerabilities and weaknesses into an organizational threat scorecard, executive summary, and action plan to increase your overall threat score. Our custom approach addresses the full spectrum of recent developments that can put you, your company, and your employees at risk.

### TACTICAL & STRATEGIC EVALUATIONS

- API & Microservices Assessments
- Cloud Security
- Cryptocurrency and Crypto
- Wallet Attacks
- Deepfakes
- Evolved Denial of Service
- IoT Assessments
- National State-Sponsored
- Ransomware
- Software Supply Chain
- Satellite Networks
- Zero Trust

### EMERGING THREAT SCORECARD

Having a solid security posture is a fundamental objective for most organizations. CBI's threat scorecard identifies and catalogs your organization's level of IT vulnerabilities to measure and evaluate your security posture over time.

#### Needs Improvement

0% - 50%

- Coverage for the control area is extremely limited
- Immediate attention to address significant exposure
- Major changes to meet industry standards
- Organization faces significant and inevitable impact from emerging threats

#### Fair

51% - 80%

- Current implementation for the control area protects some areas of enterprise
- Moderate changes required to elevate to meet industry standards
- Organization is at heightened risk for emerging threat impact

#### Satisfactory

81% - 90%

- Meets accepted standards for the industry
- General agreement within the organization that identified actions should be performed
- Organization is at a moderate risk for emerging threat impact

#### Excellent

91% - 100%

- Organization is near or in complete compliance with protection standards
- Requirements for the control area are planned, implemented and repeatable
- Standard processes are regularly reviewed and updated
- Organization is well-positioned against emerging threat attacks

We are available when you need us, with the added assurance of enhanced service level agreements **between CBI and your organization.**

## DELIVERABLES

### Key Findings Summary

An executive summary that provides a clear picture of your security posture as it relates to emerging threats, in a format that can be easily communicated to other stakeholders.

### Gap Analysis

A detailed report of deficiencies in your organization's security program that could hamper your ability to prevent, detect, or respond to an attack.

### Threat Mitigation Roadmap

Prioritized recommendations for enhancing your defensive capabilities, including short- and long-term initiatives that are tailored to your organization's security and business goals.

## ESTIMATED DURATION

Project duration is approximately one to two weeks, dependent upon scope. Final pricing, scope, and deliverables are determined upon execution of a formal statement of work.

## Core Values

Core values at many companies are written once and put in a drawer to collect dust. At CBI, we discuss and live by our core values every day.

## Community

At CBI, we understand that each person's unique skills and experiences play a role in our innovation and growth. We serve and support our clients, employees and partners better when we welcome different backgrounds, points of view, and ideas. CBI is committed to building a space that respects individuals, advances diversity, and unites us in support of our local and industry communities.
