# Cloud Security is a
Shared Responsibility

YOU are responsible for security **IN** the cloud. Your cloud provider is responsible for security **OF** the cloud. Sometimes the responsibility meets in between.

Be secure and be certain you know the difference.

	On-Prem	IaaS	PaaS	SaaS	FaaS
Customer Responsibility					
Identity & Access	Customer	Customer	Customer	Customer	Customer
Endpoints	Customer	Customer	Customer	Customer	Customer
Data	Customer	Customer	Customer	Customer	Customer
Varied Responsibility					
Applications	Customer	Customer	Customer	Cloud	Customer
Operating Systems	Customer	Customer	Cloud	Cloud	Cloud
Virtual Networks	Customer	Customer	Cloud	Cloud	Cloud
Cloud Provider Responsibility					
Hypervisors	Customer	Cloud	Cloud	Cloud	Cloud
Host Infrastructure	Customer	Cloud	Cloud	Cloud	Cloud
Physical Networks	Customer	Cloud	Cloud	Cloud	Cloud

Legend:
- Customer Responsibility
- Cloud Provider Responsibility

On-Prem
Infrastructure as a Service
Platform as a Service
Software as a Service
Function as a Service

Clarity in the Cloud

Moving to the cloud without fully understanding your security responsibility there can leave you vulnerable to cyber attacks.
