Why CBI & CrowdStrike

With CBI, the team you see is the team you get. CBI has a dedicated Professional Services team focused on delivering CrowdStrike Endpoint Detection and Response (EDR) cybersecurity solutions – from assessment to strategy to integration to management of the end solution.

Our Security Operations Center is staffed with CrowdStrike-certified engineers to provide 24/7/365 support for CrowdStrike solutions including:

- Next-generation anti-virus detection
- Local firewall settings and rules
- Local firewall rule and policy change audits
- Device Control
- IT configuration enforcement
- Remote Administration

BETTER PROTECTION

Get protection across the entire threat lifecycle by combining machine learning, artificial intelligence, behavioral analytics and proactive threat hunting in a single solution — all powered by the CrowdStrike Threat Graph, the security industry's largest cloud analytics platform.

BETTER PERFORMANCE

A single lightweight agent works everywhere, including virtual machines and data centers — providing endpoint security even when endpoints are offline.

BETTER VALUE

Get better protection while eliminating on-premise infrastructure and consolidating your endpoint agents with an extensible platform that grows and adapts to your needs without adding complexity.
