ARCHITECTURE & INTEGRATION

CONNECT CYBERSECURITY TO BUSINESS OUTCOMES

Security executives are increasingly held accountable for both business and technological aspects of security. As they seek to create value for the business, optimizing investments has never been more important.

CBI, A Converge Company offers Architecture & Integration Services designed to align cybersecurity capabilities with desired business outcomes and strengthen defenses across people, process, and technology.

OFFERINGS

STRATEGIC STAFFING

Organizations of all sizes are grappling with the need for more cybersecurity skills and resources in a labor market that can't deliver. The result—security teams that are understaffed and overburdened.

With CBI's Strategic Staffing Services, you can quickly fill organizational gaps and improve the efficiency of your security operations.

- Security Overlay
- Technology Optimization
- Incident & Event Management
- Active Directory Security Provisioning
- Threat & Vulnerability Management
- Virtual CISO

TECHNOLOGY ENABLEMENT

Technology is at the epicenter of digital transformation, enabling organizations to innovate their business and operating models while responding to threats with agility and speed.

CBI's Technology Enablement Services fine-tune your security products and processes to improve performance, lower operational costs, and reduce risk.

- Assess
- Design
- Implement
- Optimize
