

STRATEGIC STAFFING SERVICES

ENHANCE & UPSKILL RESOURCES

Organizations of all sizes are grappling with the need for more cybersecurity skills and resources in a labor market that can't deliver. The result is understaffed and overburdened security teams that can leave your organization vulnerable to threats. With CBI, A Converge Company's Strategic Staffing Services, you can quickly fill organizational gaps and improve the efficiency of your security operations and controls.

Our team of industry-leading architects, engineers and analysts support cybersecurity across every major discipline and technology, ranging from short- to long-term assignments. Our flexible delivery draws from our full bench of skilled resources trained to meet your specific outcomes and enhance your security posture. It's your team, only better.

DAILY OPERATIONS

Routine security operations are critical and require continuous diligence and management to maintain an optimal cybersecurity stance. Daily Operations staffing frees your in-house team to focus on other initiatives and provides skilled support to ensure that essential security functions are completed.

- **Assess & analyze:** Views and screens security alerts and prioritizes associated risks.
- **Investigate:** Identifies risk levels and causes associated with vulnerabilities.
- **Respond & report:** Responds, logs and reports on routine security alerts.
- **Patch & configure:** Maintains configurations and implements updates.

ADVANCED TECHNOLOGY & CONTROLS

Key security tools and controls require highly specialized skills and experience that in-house teams aren't always able to deliver. Our cybersecurity staffing resources hold various industry certifications and receive cutting-edge technical training to enhance your current capabilities and optimize your solutions and controls.

- **Implementation:** Ensures correct configuration, deployment and optimization of new technologies.
- **Integration and management:** Incorporates and oversees operation of core security technologies within your security stack.
- **Analytics:** Applies advanced capabilities to data collected from security tools to detect threat behavior.
- **Detection and remediation:** Optimizes technology solutions for improved risk detection and vulnerability remediation.

OUR SERVICES

EXECUTIVE STRATEGY

Leadership that takes the helm to develop, manage and maintain an organization's security response is crucial. But quickly sourcing a skilled executive or committing to a full-time position isn't always feasible. Executive Strategy staffing places an experienced leader inside your organization to work alongside your in-house team and collaborate with stakeholders across individual business units.

- **Program and policy development:** Builds customized implementation and management plans.
- **Facilitation and reporting:** Manages existing programs and projects with a focus on accountability and documentation.
- **vCISO:** Provides strategic direction and guides program evolution for measurable improvement.

We are available when you need us, with the added assurance of enhanced service level agreements.
